Future Industry Challenges

Industrial Practitioners
Future Industry Challenges

Thoughts from a Surveying Company perspective:

- Informed clients
- Skilled and experienced operators
- Selling, overselling and underselling
- Uptake and adoption of new technologies and workflows
Thoughts from a BIM perspective:

- **Standards**
- **Security**

- **Do the basics first**
  - Classification & Asset Hierarchies
  - Tagging
  - Accuracies
Future Industry Challenges

Thoughts from a BIM perspective:

- **Challenging New Technology & Practices**
